Fire danger today is **MODERATE** in northern Vermont and **LOW** in southern Vermont. Fire danger is highest where mostly sunny skies and warm temps are drying dead fuels. In the Champlain valley winds are gusty this afternoon, fire danger in this area could reach HIGH. In southern Vermont, overcast skies and high Rh is keeping fire danger LOW. Open burning is allowed where fuel and wind conditions are favorable.

Tomorrow, partly to mostly sunny skies, moderate Rh and possible gusty winds will keep fire danger **MODERATE** statewide.

[Six Minutes for Safety: An interagency safety initiative that address high-risk situations that historically get firefighters in trouble.](#)

Report Submitted by: Tess Greaves, VT Dept. of Forests, Parks & Recreation
